Sprint 2

What Went Well +

Communication increased from the other two sprints

+3

Team work. Everyone really came together to bring the product alive along with all the other requirements for this sprint.

+3

The team saw itself through complications and hardships.

+3

Final product came together great

+3

The wiki page was a lot more proactively organized in this sprint.

+0

Went Could be Improved +

Time Management. A couple tasks were pushed to the last minute

+3

Logging completed tasks caused the burn rate to look like we did all the work in the last week.

+3

Not being afraid to let someone know if they made a mistake

+0

Future Feedback +

Communicate as early as possible and get ahead of tasks so that if issues come up there is ample time to resolve them.

+3

Try to get an earlier head start on things.

+0

Gen communication was decent, but maybe could have been more specific

+1

It may be worth applying deadlines to tasks on the Kanban board so that they can be tracked more effectively and also crossed off once they
