

Persona 2

Academic Advisor

Isabelle Johnson, 42
Academic Advisor at Pace University

As the academic advisor, she spends significant administrative time manually verifying prerequisites and building schedules. IAPO automates the mechanical routing of degree planning, allowing her to focus on high-level academic and career mentorship.

Problems:

- Manual schedule planning
- Changing degree requirements
- Limited advising time

Goals:

- Accurate requirement checking
- Automate schedule planning
- Early graduation tracking
- Faster student advising
